EXPERIENCE

Paytm, Bengaluru — SSE (Frontend heavy)

MARCH 2022 – PRESENT

- **Paytm Payments**
 - Improved *frontend load time* by ~30%.
 - Improved the *cost of a backend service* by ~90% and also implemented a fully configurable *A/B testing framework*. Also, I was *leading the project* here.
- **Paytm Money**
 - **Paytm Wealth Academy**
 - Worked on building a one-stop platform for stock market-related educational videos. We used *React*, *Styled Components* with some *other libraries*.
 - **Stocks Mini**
 - Worked on building a standalone page for *ETFs* using *React* and *React Query*.

Enterprise Minds, Pune — SSE (Frontend heavy)

OCT 2020 – MARCH 2022

- **ThoughtSpot**
 - Worked on migrating the *core charting and table* area from a legacy *Angular* app to an optimized *React* app in a *micro-frontend architecture*, where we are using *GraphQL* and *Apollo Client*. Also, helped in strengthening the code base with *unit, integration and end-to-end testing*.
- **Open Financial**
 - Worked on refactoring their frontend codebase using *Next.js* and *React Query*.
- **Logik**
 - Worked on a *POC*, where we used *React D3 Tree* (wrapper, built on top of *D3.js*).

Infosys, Hyderabad — SSE (Frontend heavy)

APRIL 2018 – OCT 2020

- **Arizona Public Service**
 - Worked on building an iOS app using *Xamarin*. Also, I integrated *Microsoft's App Center* for Analytics.

EDUCATION

ITER, Bhubaneswar — B. Tech. (CSE)

AUGUST 2014 – MARCH 2018

- Led my team and built an event booking website.
- Inter College GDG Devlympics Finalist.
- CGPA: 8.56

PERSONAL PROJECTS

- [My Portfolio](#)
- [Socialize](#)
- [Get Your Dream Job](#)
